Acephate, anticholinesterase properties, insect mammals 38:131
effect on trout cholinesterase 38:22
prebloom treatment, effect on bees 38:594
Acetaldehyde, blood and liver concentration after ethanol 37:513
tissue distribution in rats 35:393
Acethylcholinesterase, aluminum activation and inactivation 32:704
Acetone, effect on aquatic bioassay 36:254
Acetylcholine, role in smooth muscle contraction 34:476
Acetylcholinesterase, effect of storage in honeybee 34:668
storage and handling as error sources 35:790
Acid, effect on crayfish maternal behavior 35:641
Acid Rain, acid, Al effects on frogs 39:37
sodium loss, fish mortality 39:7
inhibition of carbon and nitrogen mineralization 32:698
pH effects on sunapee char 33:430
Acrylamide, effect on energy linked brain functions 37:427
effect on glutathione-S-transferase in brain 32:166
toxic effects in freshwater fish 37:274
Acrylic, polymer comonomer uptake and distribution 40:326
Adenylate energy charge, extraction techniques 33:584
response to stress in crayfish 33:584
Aerosol size, in electric fields 34:850
Aflatoxin, aflatoxin B_1 in Nigerian beer 37:482
fluorometric assay 33:515
growth effects in hamster and rat 35:149
HPTLC for screening 36:815
in human food, S. Africa 40:240
suppression of serum iron-binding and bone marrow 40:576
toxicity to 5th instar milkweed bug 40:333
Air, chlorpyrifos in household air 40:561
cigarette sidestream smoke and body weight 40:590
cigarette smoke effect on estrus cycle and mating 40:584
moss bags as monitors 40:447
pesticide methods 33:13
pesticide sampling with Chromosorb 102 35:460
pesticide volatility 35:569
pollution effects on mesophyll cells, Phlomis 38:610
sorbent efficiency for pesticides 33:476
superoxide anion from organic matter 40:678
triallate and trifluralin in Saskatchewan 40:683
Air pollution, decomposition of isoprene derivatives 36:15
effect on Athen's ecosystem 34:280
electrostatic removal of odors and aerosols 36:701
estimation from expectorate samples 32:517
microbial decomposition of 36:15
PAH and mutagenicity of particulates 36:685
sampling with octadecylsilane cartridges 37:664
Alachlor, persistence in soil 34:143
removal from contaminated fabrics 36:234
Alcohol, effect on fish immune response 34:106

Aldicarb, cleanup technique 32:59
effect on freshwater fish 38:36
metabolic pathway 32:274
movement in soil types 32:377
organal damage to teleost 33:50
pH and hydrolysis 34:627
persistence and metabolism in potatoes 32:274
residues in New York potatoes, soil 32:116
soil detoxicant and persistence 38:104
toxicity to Daphnia 35:546
toxicity to fish 33:50, 127
Aldicarb sulfoxide, HPLC method for watermelon 37:192
Aldrin, in watersnakes in Mississippi 32:460
levels in Illinois birds 31:407
metabolism by a planarian 34:871
sampling in air 35:460
Alga, aniline effects on Chlorella 35:234
atrazine effects on stream algae 37:330
effect of insecticides in soil 33:241
effect of insecticides on germination 33:571
effect of insecticides on growth 33:571
insecticide effects in flooded and nonflooded soil 33:241
organic solvent interaction 40:736
polynuclear hydrocarbon effect on nitrogen fixation 35:258
toxicity of fluridone 34:696
Algae, technique for enumeration of 32:333
Algicide, glutathione dependent toxicity to Daphnia 37:629
Alkyl phosphate, triaryl/alkyl phosphates in human adipose tissue 37:41
Alkytin, response of bacteria 36:60
Allyl Isothiocyanate, toxicity to human cells and yeast 40:340
Alsystin, effect on bird populations 34:68
Aluminum, aluminum chloride effect on human sperm 40:444
effect on bovine monoamine oxidase 34:451
inhibition of human serum chloinesterase 31:164
interference w/Na influx in aquatic org. 32:575
lung irritation in humans 34:702
mortality of salmon smolt 37:258
Ambystoma texanum, temperature and pH effects on embryonic survival 31:467
Americium, biokinetics in benthic organisms 35:826
Amino acid, effect on toxicity of heavy metals, phytoplankton 40:532
Aminoazobenzene, oxidative pathway after reduction 39:108
reductive metabolism 39:100
Aminocarb, acute toxicity and esterase inhibition 31:326
effect on songbird brain acetylcholinesterase 31:125
residues after budworm treatment 36:622
Ammonia, effect on fungal development 34:684
effect on microsomal enzymes 35:15
effect on mouse liver enzymes 35:15
patterns in streams from effluent 40:539
toxicity to fish and invertebrates 38:324
Anilide, inhibition of hill reaction 38:602
effect on alga 35:234
fate of residues from herbicides 35:696
fluchloralin in fruit 35:285

Anilide, herbicide residues in pond water 35:696
toxicity to *Daphnia* 40:1
Animal rearing, removal of odors by electrical field 31:699
Anisoles, in sediments, Japan 35:272
toxicity of hydroxyanisole to human cells 35:427
Anthracene, fate in trout 39:29
Antibiotic, production by four ecotypes of *Donaliella* 40:18
Antimony, toxicity to fathead minnow 32:565
Aquaculture, growth and contamination of shrimp 35:537
Aquashade, effect on crayfish 33:373
Arochlor 1016, stability in Hudson River 31:377
Arochlor 1254, effect on pituitary-adrenal function 31:322
hepatomegaly in rats 31:183
levels in fish 31:257
uptake by bacteria, mosquito larvae, guppies, cichlids 31:445
Aromatic hydrocarbons, accumulation in mussels 31:41
effect on fish scales 31:315
in fish 34:876
levels after slash burning 31:208
Aromatic amines, *in vitro* screening method 31:278
Arsenic, chemical species in human urine and hair 40:633
chronic effects in rainbow trout 32:732
effect on fungal development 34:684
excretion in rainbow trout 32:661
in Arabian Sea tuna fish 40:219
in Chilean marine species 37:599
in bird feathers 34:617
in children near copper smelter 39:114
levels in cotton after cacodylic acid 31:216
levels and species in humans, Japan 31:267
metabolism and excretion of methylarsonic acid 40:280
residue in estuaries, The Netherlands 34:617
seasonal levels in well water, Oregon 33:264
sediment and toxicity changes 38:491
toxicity to *Bosmina longirostris* 33:325
toxicity/accumulation by heterotrophic bacteria 38:1049
Arsenobetaine, metabolism and excretion 36:350
Asbestos, in municipal sludge 34:301
in sewage sludge ash 40:703
Aspartate, neonatal effects in the mouse 32:410
Aspergillus spp., mutagenicity of austocystins 37:643
Atrazine, effect on bluegill 38:47
effect on nontarget organisms with permethrin 31:297
effect on renal function 36:325
effect on stream algae 37:330
fate and effects in aquatic microcosms 32:345
growth rate depression in algae 39:1041
in groundwater 39:807
persistence and movement in salt marsh 39:516
persistence in soils 34:541
removal from fabric 39:671
residues in water and soil 40:647
toxicity to aquatic organisms and plant growth 35:646
Austocystins, mutagenicity 37:643

Avian toxicity testing, effect of chemical carriers 31:195
Azaarenes, mobilization from waste sludge 32:445
Azoreductase, properties, Pseudomonas 39:982

Bacteria, E. coli as bioassay organism 34:75
effect of culture on microbial toxicity assessment 34:331
effect of mercury-pesticide combinations 34:676
parathion and E. coli membranes 34:265
Basic dye, growth inhibition of B. subtilis 40:545
Benomyl, effect on microbes in soil 34:533
Benzene, bluegill and exposure 33:26
chlorinated benzene and teratogenic, carcinogenic, and mutagenic, activity 37:633
N-butyl, n-hexyl, n-octyl metabolism, trout 39:182
oxidative pathway of reduced aminoazobenzene 39:108
reductive metabolism of aminoazobenzenes 39:100
toxicity to sea urchin embryos, sperm 40:481
1,3,5-trichloro-2-(4-nitrophenoxy) benzene in Ishikari River ecosystem, Japan 37:344
tyrosine aminotransferase in rat 34:36
Benzidine, assay by LC 39:524
dermal absorption and distribution in rats 31:73
Benzimidazole, effect on cultured mammalian cells 31:428
Benzo(a)pyrene, distribution in rat brain 35:500
asbestos catalyzed oxidation 39:312
glucuronide and sulfate conjugates, soybean 39:294
metabolism in monkeys and herpes 32:1
octanol-water partition coefficient 32:316
Benzofuran, dibenzofuran from flame retardant 39:953
in American lobster 39:1069
Beryllium, in sediments, Nagoya, Japan 36:935
Beryllium nitrate, effect on pregnancy in rat 38:73
BHA, RBC hemolysis, sulfhydryl liberation 38:882
BHC, in wheat grains and straw 40:696
toxicity to Tilapia mossambica 31:543
BHT, detection of exposure in animals 33:533
Bioassay, adenylate energy charge 36:1
air pollution, leaf structure 39:474
aniline in food oils 39:511
aquatic organisms 36:1
aquatic pollutants and courtship behavior 40:396
aquatic toxicity with human and monkey cells 36:523
assessment of heavy metal sampling patterns 38:700
bacterial growth test, improved 37:565
barbel bioassay for PCB in water 37:858
BASIC program for LD_{50} 37:18
benzidine in soil solution by LC 39:524
bovine blood as Q.C. for human blood lead 35:380
captive starlings for reproductive effects 37:655
chlorinated phenol toxicity to bacteria and biochemical tests 38:868
computer program for probit, log-probit, logit 36:242
computerized, algal 36:801
contamination index, mercury/size 38:515

Bioassay, Daphnia and coal liquefaction wastewaters 35:249
Daphnia for acute toxicity of waste water 35:368
dichlorobenzilic acid in human urine 39:498
effect on aquatic bioassay 36:254
elements in animal feed 35:689
ELISA for paraquat 39:490
factorial design for synergistic effects in the environment 39:729
fern for heavy metals 35:430
fish behavior and pH 37:808
flocculent analysis for wastewater 35:476
flow system for populations of Daphnia 40:496
for pesticides with mosquito 35:133
green peach aphid plant preference 39:257
gut sediment and heavy metal level 35:345
hydrogen oxidation soil bioassay 36:384
lab. assessment of phthalazine environmental impact 38:332
lichens and heavy metal pollution 38:91
long-term toxicity test using zebra fish 37:606
macrophage aggregates for fish health 35:222
medium components and metal cyto- and geno-toxicity 37:883
medium composition effects, fungi 36:807
metal-binding protein in oyster 38:707
methods for avian food avoidance 40:619
MFO induction by organic river sediment 37:180
microbial growth in chlorinated waste 38:661
microtox and S. volutans for toxicants 35:443
microtox test and multiple regression analysis 36:707
mitochondria and water quality 38:467
mole and earthworm as heavy metal indicator 39:933
molecular connectivity indices 37:326
molecular volume and chemical toxicity to fish 36:881
moss bags for air pollution 40:447
multivariate statistical approach, dioxin, furan contamination 40:641
mycoassay of essential oils 39:688
pesticide volatility 35:569
pocketbook mussel and heavy metals 38:641
promutagenic activity of liver homogenates 38:565
rat data for estimating human hazard 37:159
reference chemicals in aquatic toxicology 39:23
RIA for paralytic shellfish toxins 39:264
soil water samplers 36:563
sperm mobility in rat 36:317
sphagnum moss for metals 35:439
storage and handling as acethycholinesterase error sources 35:790
synergistic modulation of lymphocyte mitogenesis 37:187
taurine-glycine ratio and stress 38:15
teleost pathology due to sewage 37:266
test solutions for Daphnia 36:95
toxicity of para-substituted phenols 38:994
toxicity of solvents to algae 38:1012

Bioassay, tree bark and radioactivity 35:193
tributyltin by AA 39:412
22 yeasts for T-2 toxin 39:86
uranyl nitrate renal model 36:67
use of Barentsia matsushimana, entoproct, for environmental chemicals 38:634
water purification for fish toxicology 40:185
water soluble crude oil fraction-preparation 36:226
Biphenyl, elimination of hexachlorobiphenyl in sea urchin 38:1029
molecular connectivity indices and teratogenic, carcinogenic, and mutagenic activity 37:633
Birds, captive starlings as assay for reproductive effects 37:655
chlorfenvinphos and brain cholinesterase activity 37:774
DDE and trace elements in brown pelican 35:183
eggshell thinning and organochlorines 35:173
metals in egret 35:781
metals in gamebirds 35:776
priority pollutants in diets 34:634
selenium and heavy metals in migratory birds 37:219
trace elements in coots 36:376
Blood, determination of volatile organics 40:612
halocarbons in haemodialysis therapy 35:583
Bluegill, benzene exposure 33:26
Brestan, acute toxicity to freshwater organisms 38:647
Brodifacoum, HPLC method for tissues of sheep and rabbits 31:239
Bromacil, movement in soil 35:279
Bromide, production of brominated phenol in wastewater 33:395
Bromine, toxicity to fish 31:309
Bromophenols, formation in drinking water, Barcelona, Spain 36:219
Butachlor, fate in river water, shellfish, sediment 39:555
Butyltin, accumulation in freshwater clam 36:756
response of bacteria 36:60

Cacodylic acid, arsenic levels in cotton 31:216
Cadmium, accumulation and depuration in A. anatina 40:373
accumulation in crayfish 37:722
accumulation in prawn 36:192
acute toxicity to amphipods and crustaceans 39:884
and blood pressure in females 35:386
anomalics in Medaka's Centrum 32:693
binding to mucosal brush border 40:418
bioaccumulation in molluscs 31:339
biochemical effects in heifers 40:131
blood, urine, diet relationships 38:196
cadmium chloride effect on squirrel thyroid 40:268
cadmium-Ni interactions toward single-cell organisms 37:550
cadmium-Zn developmental effects in Artemia spp. 37:289
calcium effect on absorption, toxicity 39:453
cardiovascular function in females 36:484
catabolism and distribution in rats 31:391
Cd and heavy metal resistance 32:597
chemotaxis, marine and fresh water ciliates 34:897
chromatin condensation in fish 36:199
coexposure effects w/ethanol 39:633

Cadmium, deposition in quail fed honeybees 38:783
diet-body relationship 37:234
disposition in mussels 37:579
dose response to low level 40:301
effect of cadmium chloride on cell division 36:342
effect of nitrilotriacetic acid on uptake in yeast 37:96
effect of zinc, copper, cadmium in trout 36:168
effect on bone alkaline and acid phosphatases 31:386
effect on collagen and elastin in rat 40:273
effect on erythropoiesis 36:674
effect on gill and digestive diverticula in mussel 36:146
effect on growth Nereis succinea 31:535
effect on lipids and cholesterol in fish 32:486
effect on liver and kidney Zn, Cu, Fe, Mn, Cr 38:588
effect on microbes 36:396
effect on neurotransmitter uptake, rat 37:421
effect on oviposition and egg viability in Chironomus 38:86
effect on rat reproduction with clinoptilolite 31:666
effect on settlement of oysters 31:344
hematological characteristics in trout 37:375
improved determination in blood and plasma 36:496
in American lobster, multiple linear regression 38:687
in biosphere in Chile 32:640
in cigarette smoke particulates 36:372
in crayfish 38:540
increase in urea cycle amino acids 40:553
induction of metallothionein-like proteins 33:144
influence on microelements in decapods 32:93
in hair of black female hypertensives 32:525
inhibition of Na^+/K^+ ATPase, crab 40:759
in human blood 36:491
in humans, Korea 38:189
in Lake Ontario salmonids 38:695
in Lake Pontchartrain, USA 37:151
in liver and kidneys from Norwegian Cervides 37:453
in livestock, Italy 39:460
in potable water, Saudi Arabia 40:462
in sheep near smelter 37:87
intestinal absorption and mucosal metallothionein 38:295
level in edible vegetables 38:805
levels in fish 31:257
levels in molluscs, S. Africa 31:331
metabolic alterations in testes and liver, rat 40:569
migration from tableware 37:638
mortality in polluted area 38:553
pollution in plants from urban area 38:203
seasonal variation of Murex 39:69
temperature tolerance of green sunfish 40:475
tissue distribution and retention 31:399
tolerance in fiddler crab 37:362
tolerance in grass shrimp 40:30
toxic effects w/Pb in food chain 32:717
toxicity, accumulation in algae 34:904
toxicity/accumulation in duckweed 38:1055

Cadmium, toxicity of Cd to Daphnia spp. 37:308
toxicity to Cyprinus spp. and Tilapia spp. 37:382
toxicity to freshwater crayfish 37:355
toxicity to marine invertebrates 36:749
uptake and excretion in clams 32:85
uptake and toxicity in striped bass 34:196
uptake by salmon eggs and alevins 34:359
variation in migratory birds 37:219
wastewater cleanup 34:872
Zn reversal of tissue damage 39:350
Calciferol, histological diagnosis of poisoning 32:175
Calcium oxide, toxicity to non-target organisms 40:503
Calmodulin, heavy metals and conformational changes 38:289
Capillary gas chromatography, PCB in paper 32:45
Captan, degradation behavior, greenhouse 40:80
degradation in the laboratory 40:689
effect on microbes in soil 34:533
exposure estimate of pickers 38:840
reproductive effects in rats 33:84
residues and processing removal 40:74
Carbamate, molecular connectivity and toxicity 37:326
toxicity to songbirds 33:302
Carbamates, effect on gonadal development 34:481
optical isomers and biological activity 34:797
separation of optical isomers 34:797
Carbarsone, spectrophotometric method for turkey feed 31:235
Carbaryl, degradation in flooded soil 36:827
determination in trout liver 37:415
effect of phenobarbital on metabolism 39:815
effect on fish respiration 32:570
effect on gonadal development 34:481
effect on lymphocyte mitogensis 37:187
effect on neuroblastoma cells 38:143
effect on trout brain cholinesterase 38:29
inhibition of interferon synthesis 34:109
methemoglobin formation and glutathione depletion 36:506
removal from fabric 39:671
residues in pineapples 32:310
sampling in air 35:460
toxicity to goldfish and killifish 31:526
toxicity to mosquito fish 40:779
toxicity to Tilapia mossambica 31:543
Carbendazim, teratogenicity in mammals 33:257
Carbofuran, bacterial degradation 33:556
biodegradation in pretreated and nontreated soil 39:571
bird toxicity tests 31:195
cleanup technique from plants 32:59
degradation in flooded soil 36:827
degradation in soil 39:579
degradation in soils by microorganisms 33:556
distribution in rice paddy ecosystem 36:763
effect on soil fungi 36:533
effect on teleost gonad 34:597
effects on earthworm 38:171

Carbon monoxide, effect on conceptus weight in rats 31:85
inhalation and fetal weight in rat 37:877
Carbon tetrachloride, effect on Zn and Cu in the rat 32:405
effect on blood pressure in rats 34:730
hepititis and zinc, iron and copper in rats 36:306
liver injury in rats 38:959
minerals and blood pressure 35:608
Carbophenothion, worker reentry, Florida, USA 35:213
Carboxin, exposure of seed-treating applicators 31:244
Carcinogenicity, cigarette smoking 33:682
epidemiology 33:682
of asbestos 33:682
of dyes 33:682
Castor oil, toxicity to catfish 37:297
Catfish, effect of cadmium on lipids 32:486
CCl_4, induction of lipid peroxidation 40:255
Ceriodaphnia affinis, effect of sodium selenite 36:876
Chirality, carbamates 34:797
Chlomethoxynil, fate in river water, shellfish, sediment 39:555
Chlor-alkali, mercury contamination from manufacturing plant 32:439
Chlordane, barrier sprays for managing residues 37:467
effect on lymphocyte mitogenesis 37:187
effect on testicular tissues, mice 39:434
in human blood 36:635
in residences, NJ 39:903, 911
levels in home air 39:533
levels in human milk 31:251
levels in sediment and aquatic organisms, NY, USA 36:159
residue method in fish 37:1
urban area correlation with fish residues 39:563
Chlordecone, exposure and liver weight 39:615
Chlordimeform, analysis in human tissue 35:397
dislodgeable residues on cotton 31:551
Chlorella protothecoides, recovery of photosynthesis after methyl-parathion 32:102
Chlorfenvinphos, acetylcholinesterase activity in starling brain 37:774
effect on entomophagous fauna 38:813
fate in soil 40:47
Chlorinated benzene, molecular connectivity indices and mutagenicity, carcinogenicity, teratogenicity 37:633
Chlorinated diphenyl ethers, disposition in rats 31:613
Chlorination, mutagens in water 34:815
Chlorine, inpact on oxidation of nitrilotriacetic acid 33:548
toxicity to fish 31:309
Chloroacetone, degradation 39:549
Chlorobenzene, toxicity to sea urchin embryos, sperm 40:481
Chlorobenzenes, bacterial toxicity testing, environment 31:105
Chlorobenzilate, exposure of fieldworkers 35:496
fruitpicker exposure 36:693
in citrus fieldworkers 35:496
metabolite in human sweat 35:68
Chlorobiphenyl, metabolism in soil 33:6
volatility 33:6

1-chloro-2,4-dinitrobenzene, glutathione dependent toxicity to Daphnia 37:629
4-chloro-3-methylphenol, mutagenicity by salmonella/activation 37:651
2-Chloroethanol, fatty acid conjugate, chloroethylsterate 39:835
Chloroethylstearate, fatty acid conjugate of 2-chloroethanol 39:835
Chloroform, in water and human blood 36:477
Chlorophenol, acute toxicity to Daphnia magna 37:599
toxicity to freshwater bacteria 37:714
Chlorophenoxyacetic acid, effect on catalase activity, chicken embryo 40:263
Chlorothalonil, disappearance in water 40:405
Chloroxuron, determination in strawberries 35:711
Chlorpropham, concentrations in soil and lettuce 38:240
Chlorpyrifos, degradation in soil 39:579
dislodgeable residues on lawn foliage 37:33
dislodgeable residues on turf 37:27
effect on soil fungi 36:533
in household air 40:561
levels in home air 39:533
residue in cattle from ear tag 37:692
residues in dormitory rooms 32:259
Chlorsulfuron, persistence in soil 37:698
Cholesterol, hypocholesterolemic activity of dichlorophenoxypropionic acid 39:966
Cholinesterase, flower garden workers, OP of exposure 32:251
inhibition by river sediment organics 32:391
monitoring songbirds for ChE inhibitors 32:282
temperature effect on recovery 40:358
Chromium, accumulation in crayfish 36:851
bioaccumulation in molluscs 31:339
effects on carbon assimilation 38:715
in trees near smelter 40:457
levels in molluscs, S. Africa 31:331
nephrotoxic and hepatotoxic effects 36:332
pollution by chrome plating plant 33:163
urban pollution by chromic trioxide 33:163
Cigarette, smoke inhalation and fetal weight in rat 37:877
Cigarette smoke, effect on conceptus weight in rats 31:85
effect on estrus cycle and mating, rat 40:584
sidestream smoke and body weight, rat 40:590
Cineole, metabolism of 1,8 cineole in rat 37:759
Cinnamic Aldehyde, toxicity to human cells and yeast 40:340
Clams, uptake and excretion of Cd, CdEDTA and Zn 32:85
use as organochlorine pesticide monitor 31:33
Cleanup technique, columns using hexane, pesticides 32:59
Cloracetamide, toxicity to earthworm 33:568
Clinoptilolite, effect on rat reproduction with cadmium 31:666
CNP, fate in river water, shellfish, sediment 39:555
Coal, liquefaction product systemic toxicity 40:433
toxicity of distillates to Spirodela polyrrhiza 33:220
toxicity of gasifier waste to aquatic plants 35:551
toxicity of liquification products to catfish 34:746
Coal ash, elemental composition of plants grown in 31:418
Cobalt, bioaccumulation in molluscs 31:339
effect on Spirulina platensis 39:716
levels in molluscs, S. Africa 31:331

Computer, program for probit, log-probit, logit 36:242
Cooking oils, adulteration by C_{16} and C_{18} fatty acids esters of chloropropanediol 31:625
Copper, absorption by aquatic organisms 35:362
alkaline stress and acute toxicity in the snail 31:719
bioaccumulation in molluscs 31:339
biochemical toxicity to clam 40:510
chemotaxis, marine and freshwater ciliates 34:897
content in South African fruits and vegetables 37:81
copper sulfate accumulation in carp 39:370
diet-body relationship 37:234
effect on aminolevulinic acid dehydratase 33:92
effect on ciliary function in gill tissue 35:556
effect on glycerol production by Dunaliella 38:359
effect on settlement of oysters 31:344
enhancement of pigment in Dunaliella spp. 37:710
flow system for toxicity to Daphnia 40:496
growth effects in hamster and rat 35:149
histochemical analysis in slug digestive gland 36:600
histopathology of snail epithelium 36:906
histophysiology in slug digestive gland 36:608
in CCl_4-treated rat 32:405
in crayfish 38:540
in fur of animals 37:213
in gamebird plummage 35:776
in Lake Pontchartrain, USA 37:151
in sheep near smelter 37:87
levels in bird feathers 31:1
levels in dogfish exposed to zinc 31:415
levels in fish 31:257
levels in molluscs, S. Africa 31:331
migration from tableware 37:638
relationship with Pb after Pb intoxication 32:157
toxicity, accumulation in algae 34:904
toxicity and accumulation in crab 39:708
toxicity assay using Baker's yeast 32:80
toxicity to freshwater snail 39:50
toxicity to marine invertebrates 36:749
wastewater cleanup 34:866
Copper sulphate, physiological effect on snail 34:396
Coral, drilling mud effects 33:362
Coulter counter, use as algal counter 32:333
Crabs, influence of Cd on microelement content 32:93
Crude oil, effect on aquatic organisms 32:368
effect on behavior of Daphnia 31:152
fish exposure and breathing rates 32:363
Vn and Ni content in tar flakes 32:635
Crystal violet, degradation by yeasts 34:323
Cutrine-plus, LC_{50} to microcrustaceans 35:127
Cyanatryn, degradation in water 35:666
Cyclohexyltin, degradation in orchard soil 38:627
Cyclopiazonic acid, embryotoxicity in mice 34:423
Cyhexatin, effect on degradation of cyclohexyltin 38:627

Cypermethrin, in milk 35:51
residue in cattle from ear tag 37:692
toxicity to earthworm 33:568

Daphnia, acute toxicity of picloram 35:121
metals and composition of trout pellets 34:890
toxicity of aldicarb and aldicarb metabolites 35:546
toxicity of pesticides 35:646
Daphnia magna, effect of hard and soft water 33:63
toxicity of trichlopyr 32:497
Daphnia spp., test solutions for toxicity tests 36:95
trout pellet composition 34:890
Darwin, chemical Darwinisim 33:631
DBCP, air pollution 34:824
reproductive effects 37:531
sampling tube stability and desorption 36:629
soil residues 34:824
DCP, sampling tube stability and desorption 36:629
DCPA, residues with plastic row covers 35:716
DDA, analysis for urine concentration 38:798
DDD, enzymatic conversion from DDT 38:449
NADPH cyt. P-450 reductase and DDT detoxication 39:327
DDE, and eggshell thickness in pheasant 35:505
and formalin preservation of blood 33:525
distribution in brown pelican 35:183
effect on oviduct enzymes, eggshell thinning 31:22
eggshell thickness 35:767
fecal elimination w/paraffins in cow and goat 32:27
in dairy feeds, Arizona 39:587
in fish and shellfish 38:528
in wild animals 34:832
levels in birds, Illinois 31:407
residues and incubation of loggerhead turtle eggs 34:121
DDT, analysis of urine for DDA 38:798
confirming residues 33:138
determination in tobacco 36:230
effect on calcium transport and thymidine uptake 37:523
effect on hepatic and respiratory cytochromes 33:193
effect on lipid peroxidation 34:63
effect on lymphocyte mitogenesis 37:187
effect on thyroid activity in fish 36:132
effects on immune response 39:827
egg mortality of Charr 35:531
enzymatic detoxication to DDD, P-450, inducers 38:449
in feeds, Poland 34:518
in human blood near manufacturer, India 38:392
in human milk 39:756
in river Nile fish 33:246
in soil surrounding manufacturer, India 38:388
in watersnakes in Mississippi 32:460
in wheat grains and straw 40:696
intratracheal effect on lung and liver enzymes 34:55
intratracheal exposure and lung enzymes 34:24
levels after 12 years in Arizona alfalfa, soil 31:66

DDT, levels in human milk 31:251
metabolism by the planarian Phagocata gracilis 31:18
model ecosystem behavior of tetrachloro-DDT 38:96
NADPH cyt P-450 reductase to DDD 39:327
photochemical conversion of a-chloro DDT to DDE 37:791
residues in Nigerian foods 35:735
subchronic dose and humoral immune response 39:822
subchronic effect on humoral immune response 37:433
toxicity to Bosimina longirostris 33:325
toxicity to Daphnia 33:63
DDVP, home fogging and reentry 39:762
Decabromobiphenyl ether, in river sediment, Japan 36:839
Decachlorobiphenyl, photodegradation 38:409
DEHA, effect on plasma lipids and cholesterolgenesis 32:20
Deltamethrin, exposure of humans in greenhouses 35:750
Deoxynivalenol, disappearance in chickens 40:317
fluorimetric detection 34:645
Dermal, pesticide penetration in mice 38:917
Dermatitis, grape worker susceptibility 35:418
Detergent, effect of synthetic detergent on fern spores 37:837
Detergents, effect on behavior of fingerling fish 32:109
toxicity to snail 39:1036
Di(2-ethylhexyl)adipate, effect on plasma lipids and cholesterolgenesis 32:20
Diatoms, effect of monomethylhydrazine 35:98
Diazinon, concentration in air of a retail store 31:584
dose response of peripheral blood lymphocytes 37:517
histopathology of liver 37:501
human lymphocyte chromosome sensitivity 38:125
identification by CI mass-spec. 35:291
residues in dormitory rooms 32:259
sulfotepp concentration 38:793
Dibenzodioxin, absence after lactoperoxidase/chlorophenol 38:962
Dibenzofuran, absence after lactoperoxidase/chlorophenol 38:962
brominated dibenzofuran from flame retardant 39:953
Dibenzothiophene, pollution marker, organosulfur compounds 31:518
Dicarboximide fungicides, effect on MFO enzymes in quail 31:479
Dichlone, inhibition of liver glycolysis 35:23
3,4 dichloroaniline, toxicity to fathead minnows 38:352
Dichlorobenzene, teratologic evaluation in the rat 37:164
toxicity to sea urchin embryos, sperm 40:481
Dichloropropene, air pollution 34:824
soil residues 34:824
Dichlorvos, air sampling 37:664
dislodgeable residues on lawn foliage 37:33
dislodgeable residues on turf 37:27
Diclofop-methyl, biochemical, histological effects in mouse, vole 40:153
Dicofol, contamination of aquatic ecosystem, Spain 36:211
exposure of humans in greenhouses 35:750
photochemical conversion of a-chloro DDT to DDE 37:791
Dieldrin, correlation of skin levels and body burden in the bat 33:177
determination in cattle feed and manure, LC 38:396
disposition of dietary dieldrin in the bat 33:177
effect on earthworm growth 35:652
effect on lymphocyte mitogenesis 37:187

Dieldrin, induction of lipid peroxidation 40:255
in wild animals 34:832
levels in birds, Illinois 31:407
Diethylene glycol, toxicity to cultured human cells 38:151
Diflubenzuron, effect on larval crab 39:224
fate in Appalachian forest 39:142
surface residues in citrus 36:833
toxicity to grass shrimp 36:858
Dimethoate, effect on melanophores in Bufo melanostictus 35:796
residues in mangoes 32:645
toxicity to birds 36:616
Dimethylformamide, toxicity to algae 31:98
N,N-dimethylformamide, toxicity to fish and invertebrates 37:615
Dioxin, chemical Darwinisim 33:631
chromosomal aberrations 33:710
cleanup 33:726
distribution in human blood 40:604
environmental fate 33:648
enzyme induction 34:787
epidemiology 33:636, 662, 702
genetic effects 33:710
health effects 33:662
historical perspective 33:682
human exposure 33:636, 696, 702
human health 33:673
human health effects 33:696
human milk contamination 40:641
immuno effects in quail 39:481
immunologic effects 33:673
in American lobster 39:1069
in blue mussel, Japan 39:877
in stack emissions 33:153
in the environment in Missouri 33:648
in wash water 33:153
nonaccumulation in goldfish 36:452
politics 33:648, 655, 726
sister chromatid exchange 33:710
social impact 33:655
toxicology 33:636
Diphenyl, effect on cultured mammalian cells 31:428
Diquat, effect on embryos and tadpoles 38:1006
toxicity to crustacea 33:418
Dithiocarbamate fungicide, determination in air 37:931
Drosophila spp., use for organophosphate bioassay 34:809
Dursban, bird toxicity tests 31:195
Dye, effect on crayfish 33:373
effect on Hippopera nigeriae 33:210
effect on Zea mays 33:215
Dyes, dermal absorption in rats 31:73
residues in activated sludge 35:729

Earthworm, accumulation of methylmercury and regeneration 35:157
dieldrin effects on growth and development 35:652
toxicity of phosphamidon 32:295

EDB, toxicity to fish 33:127
Endosulfan, acute toxicity to crab 38:742
effect on hepatic and respiratory cytochromes 33:193
effect on hypophysial complex and reproduction in fish 36:122
effect on lipid peroxidation 34:63
effect on reproductive behavior in fish 33:575
effect on sexual cycle of alga 36:412
effect on transport property of haemocyanin 38:742
immune effects in rats 38:435
induction of MFO in rat 32:550
intratracheal effect on lung and liver enzymes 34:55
intratracheal exposure and lung enzymes 34:24
mutagenic activity 38:925
toxicity to crab and hydromineral balance 40:212
toxicity to mummichog 38:681
Endothal, effect on thermal maximum of Notropis lutrensis 31:512
Endothall, effect on aquatic bacteria 32:243
sorption and sediment types 32:557
toxicity to crustacea 33:418
Endrin, bird toxicity tests 31:195
identity of vanadium reaction products 31:588
in watersnakes in Mississippi 32:460
EPN, delay neurotoxicity, structure, atropine, dose 38:283
dislodgeable residues on cotton 31:551
Essential oils, toxicity to fungi 36:527
Ethanol, blood and liver acetaldehyde after ethanol 37:513
consumption and solvent exposure 37:874
delayed elimination after Thiram 32:537
toxicity to Daphnia Magna and Ceriodaphnia dubia 39:229
Ethanolamine, nitrosodiethanolamine in tobacco and dairy 35:466
Ethionine, effect on calcium uptake 40:287
Ethoprop, degradation in soil 39:579
dose-cholinesterase response 38:834
Ethylene dibromide, dose-response studies in Hydra 40:35
Ethylene glycol, toxicity to cultured human cells 38:151
Ethylenethiourea, effect on MFO, rats and mice 38:862
Exposure, office workers 31:222
seed-treating applicators 31:244
to toluene in printing plant 31:424

Fabrics, extraction of pesticide residues 31:738
Fatty acids, interference with Hall EC detector 32:187
Fenac, degradation in soil and water 32:383
Fenbutatin oxide, effect on entomophagous fauna 38:813
Fenitrothion, air sampling 37:664
anomalies in Medaka's Centrum 32:693
effect on bird cholinesterase 39:304
effect on teleost gonad 34:597
metabolism in teleost 36:140
persistence in forest 35:471
residues after budworm treatment 36:622
residues and Spruce Budworm Program 32:65
toxicity to trout 33:468
Fensulfothion, reduction to the sulfide, microbes 31:112

Fenthion, persistence in Florida estuary 38:226
toxicity to freshwater molluscs 37:622
Fentin acetate, acute toxicity to freshwater organisms 38:647
Fenvalerate, in old-field ecosystem 36:785
levels in nontarget organisms 31:61
toxicity to fathead minnow 38:727
toxicity to mummichog 38:681
Fish, ammonium sulfate induced nuclear changes 36:871
aromatic hydrocarbon 34:876
behavior after nitrite exposure 34:754
bioconcentration of lindane in trout 34:349
cadmium and chromatin condensation 36:199
carbaryl inhibition of interferon synthesis 34:109
correlation of heavy metals in tuna 36:595
DDT effect on thyroid activity 36:132
endosulphan effect on hypophysial complex and reproduction 36:122
ethanol effect on immune response 34:106
gill damage and sealed jar test 34:385
heavy metal effect on oxygen uptake of gill 36:912
macrophage aggregates to monitor health 35:222
masculinization by sterols 35:627
mercury and selenium 34:572
metal effect on salmon olfaction 36:579
molecular volume and toxicity of chemical 36:881
nitrite exposure and respiration 35:106
organochlorine in fish, W. Germany 34:608
organochlorine levels 36:109
PCB and 2,6-dimethylnaphthalene 34:114
PCB residue, Hudson River, USA 34:883
renal pathology and monocrotophos exposure 35:228
residues of triclosan methyl in Japan 32:227
single fish behavioral bioassay 34:770
toxicity of ammonia, nitrite and nitrate 36:866
toxicity of coal liquification products 34:746
toxicity of pulp mill effluent to pike eggs 36:738
toxicity of pyrethroid WL85871 34:134
trout gonad cell DNA repair assay 34:340
zinc pollution and trout survival 36:186
Zn concentrations in gill and liver 32:233
Fish toxicology, photogram method for data 32:491
Flocculent, analytical method 35:476
Fluazifor-butyl, persistence in soils 39:150
Fluchloralin, residues in dried fruit 35:285
residues in imported papaya 34:858
Flunixin meglumine, renal papillary necrosis 33:379
Fluoranthene, in oyster, S. Carolina 35:835
Fluoride, effect on hematological parameters in chicken 35:510
effect on intestinal brush border membrane 39:162
effect on lipid peroxidation 37:70
movement in salt marsh and sheep 39:945
Fluvalinate, temperature-toxicity relationships, Procambarus 40:13
Folpet, degradation behavior, greenhouse 40:80
residues and processing removal 40:74
Fonofos, degradation in soil 39:579

Formaldehyde, concentration in teaching facility 38:907
release from floor finish 40:672
Fulvic acid, biodegradation of aquatic contaminants 31:203
Fumigants, GC analysis background interferences 35:44
Fungicide, bioassay medium effects 36:807
effect on soybean-rhizobia symbiosis 36:819
ELISA assay of triadimefon 36:9
resistant Rhizobia japonicum 36:819
ziram inhibition of rat liver enzymes 37:53
Fungicides, residues in fruit, Canada 39:272
Fungus, use as pollutant bioassay 34:684
Furadan, toxicity to aquatic organisms and plant growth 35:646
Furan, human milk contamination 40:641
Furans, nonaccumulation in goldfish 36:452

Gamma pentachlorocyclohexane, toxic effect in rat 36:92
Garlon, toxicity to juvenile salmonids 39:721
toxicity to salmon, trout, Daphnia 39:15
Gas chromatography, removal of interferences 35:44
Gasoline, analysis in water 40:244
Genotoxicity, aniline residues in pond water 35:696
chromosomal aberrations in mussel 35:660
petroleum refinery effluent 35:240
styrene 35:525
2,4,5-T and morphology of Klebsiella spp. 35:739
Ginger paralysis, TOTP 34:780
βglucuronidase, release by organophosphates 31:619
Glycerol, effect of Cu and salinity on production by Dunaliella 38:359
Glysophate, effect on aquatic bacteria 36:52
photodegradation in water 36:723
toxicity to aquatic plants 33:355
toxicity to Daphnia 33:355
toxicity to trout and salmon 39:1028
Groundwater, aldicarb hydrolysis and pH 34:627
aldicarb movement 32:377
column technique for organic solutes 32:37
Guanidinium, biodegradation in soil 39:974

Hall EC detector, false halogen responses 32:187
Halocarbon, effect of lymphocytes and cells 38:856
recovery from water and blood 34:486
Halogen, analysis of halogenated hydrocarbons by widebore GLC 38:789
Halogenated Hydrocarbons, degradation in water/photolysis 40:60
Halomethane, disposition in mice and rats 37:752
toxicity to human cells 33:253
toxicity to monkey cells 33:253
Haloxyfop-methyl, persistence 39:797
HBB, in river and estuary sediments 36:778
HCB, accumulation in fish eggs and fry 36:437
HCH, residues in Nigerian foods 35:735
Heavy metal, accumulation in shoreline sediment 35:348
adrenal changes in Pb-treated rats 37:62
aluminum toxicity to salmon smolt 37:258
amino acids and toxicity to phytoplankton 40:532

Heavy metal,	background in animal feed	35:689
	bacterial resistance, Ar, Cu, Se	39:990

nephrotoxic and hepatotoxic effects of chromium 36:332
organ vs metal levels 35:781
Pb accumulation in soft tissues 39:334

Heavy metal, Pb and blood gas, acid-base balance in crab 40:204
Pb, casein diet and fetal development 39:641
Pb, Cd in livestock 39:460
Pb, Cd in plants from urban area 38:203
Pb effect on male reproduction, rat 39:448
Pb poisoning diagnosis in steers 39:622
Pb uptake and loss in crab 39:63
power plant trace elements in coots 36:376
Ra-226 in otter 38:209
residues in bird eggs, Spain 40:86
selenium status and methyl mercury binding to myelin 37:783
sensitivity of tadpoles, Bufo 38:523
sensitivity of trout eggs and alevins 36:468
separation, preconcentraton in environmental samples 36:924
six heavy metals and fetal development 38:580
source and transport, National Park of Donana 35:482
Sphagnum moss accumulation capacity 35:439
statistical assessment of sampling pattern 38:700
statistical estimate in sediment 32:503
statistical estimation of distribution 32:212
supplement effects on Pb accumulation 39:209
taurine-glycine ratio and stress 38:15
temperature effect on toxicity to crayfish 38:736
tolerance in Cd-resistant Englena 32:597
toxicity/accumulation by heterotrophic bacteria 38:1049
toxicity of Cd and sodium pentachlorophenate to Daphnia 37:308
toxicity of lead shot to ducks 40:159, 165
toxicity of oil and heavy metals to Xenopus 38:345
toxicity to bacteria 33:114
toxicity to Klebsiella 40:525
toxicity using Baker's yeast 32:80
trace elements in fish, Arabian Gulf 40:226
trace elements in human hair 37:925
trace elements in sheep 37:87
uranium toxicity to rats and mice 39:168
vanadium effect on calcium absorption in rat 37:899
vanadium effects on copper metabolism 40:309
Vn and Ni in tar flakes 32:635
water hyacinth uptake and surfactants 33:444
zinc toxicity and accumulation in crayfish 37:387
zinc toxicity to fish 36:888
Zn, Fe, Mn, Mg in crayfish, Canada 38:1076
Zn toxicity to freshwater snail 39:45
Zn toxicity to juvenile and subadult trout 39:898
Heptachlor, changes in fish kidney and blood 39:1006
HPLC analysis 32:301
in residences 39:511
level in birds, Illinois 31:407
Herbicide, atrazine effect on rat renal function 36:325
atrazine in ground water 39:807
biphenyl ethers and procarcinogen metabolism, trout 39:175
DCPA in broccoli 35:716
degradation of propanil in water 36:556

Herbicide, drift of propanil 39:126
effect on algae 34:696
effect on mouse reproduction 36:337
fate in river water, shellfish, sediment 39:555
fluazifop-butyl persistence in soils 39:150
fluchloralin in fruit 35:285
in foods, Japan 40:69
movement in soil 35:279
persistence and movement of atrazene 39:516
persistence of acetanilide herbicides in soil 34:143
persistence of atrazine in soil 34:541
persistence of chlorsulfuron and metsulfuron methyl in soil 37:698
persistence of haloxyfop-methyl 39:797
photodegradation of glyphosate in water 36:723
propanil effect on plankton oxygen production 39:245
removal of residues from drums 39:680
residues in fruit, Canada 39:272
toxicity of Garlon and Roundup to fish, Daphnia 39:15
toxicity of phenoxyherbicides to aquatic organisms 35:314
toxicity to juvenile salmonids 39:721
triallate behavior in soil 35:723
triclopyr excretion in bovine 39:443
triclopyr persistence 39:134
Herbicides, effect on soil diatom 33:439
Herpes, influence on benzo(a)pyrene metabolism 32:1
Hexabromobenzene, accumulation in fish eggs and fry 36:437
in river and estuary sediments, Japan 36:778
Hexachlorobenzene, distribution in clam and guppy 31:352
in human fat, Italy 36:644
induction of lipid peroxidation 40:255
levels in human milk 31:251
suspended solid effect on bioavailability 38:500
uptake and distribution in the slug 31:727
Hexachlorocyclohexane, induction of lipid peroxidation 40:255
Hexachlorophene, ammonia metabolism and encephalopathy 38:561
changes in mouse carbohydrate metabolism 38:157
effect on aminogram of mouse muscle 38:442
inhibition of sheep brain acetylcholinesterase 38:139
Hexane, effect on norepinephrine and dopamine levels 36:510
Hexazinone, persistence in soil 38:232
Hill reaction, inhibition by fatty acid anilides 38:602
Hippeastidine, clastogenic effect 37:508
Honey bee, effect of pesticides on acetyl cholinesterase 34:668
toxicity of pyrethroid 34:560
H_2S, fish bioassay 33:33
Human, alkyl phosphates in fieldworker urine, Florida, USA 34:210
aluminum chloride effect on sperm 40:444
arsenic exposure near copper smelter 39:114
arsenic in urine and hair 40:633
cadmium and cardiovascular function in females 36:484
cadmium in blood 36:491
Cd, Cu, Zn, Pb in renal calculi 39:343
chlordane and chlorpyrifos in home air 39:533
chlordane and heptachlor in residences 39:911

Human, chlordane in blood 36:635
chlordane in residences 39:903
chloroform in blood 36:477
cow's milk contamination, Isreal 40:94
DDT in blood 38:392
DDT, PCB, HCB, HCH in milk 39:756
dental amalgams and mercury in breath 34:459
dermal penetration of pesticides in mice 38:917
determination of picloram in urine 37:938
determination of 2,4-D in urine 33:518
determination of volatile organics in blood 40:612
distribution of dioxin in blood 40:604
effect on soil microbes 38:179
estimation of captan exposure of pickers 38:840
expectorate samples and lung irritation 34:702
exposure of citrus harvesters to chlorobenzlate 36:693
exposure to maleic hydrazide 34:403, 469
exposure to propanil 39:126
Fe levels in hair of steel workers 39:608
formaldehyde concentration in biology facility 38:907
4,4'-dichlorobenzilic acid in urine 39:498
hazard to applicators of nemacur 37:159
herbicides in food, Japan 40:69
home foggers and reentry 39:762
insecticides in crop consultant clothing 38:277
metals in hair and blood pressure 34:163
metals in hair-international comparison 36:793
mortality in cadmium area 38:553
nitrosamines in food 40:41
OP poisoning and erythrocyte effects 39:802
organochlorine and PCB in milk, Italy 39:919
organochlorine insecticides in fat, Italy 36:644
organochlorine pesticides in fat, Turkey 38:941
organochlorines in breast milk 39:506, 743
organochlorines in human milk, Greece 34:504
organochlorines in residents, Texas, USA 36:311
palmitoylpentachlorophenol in fat 34:661
Pb and Cd, Korea 38:189
PCB and pesticide in fat, Louisiana, USA 36:651
PCBs in milk 39:736
pesticide and PCB intake, Japan 38:954
pollution effect on semen 40:102
safety/exposure estimate, ethoprop, mocap 38:834
sulfuryl fluoride desorption from household commodities 39:769
trace elements in human hair 37:925
triaryl/alkyl phosphates in adipose tissue, Ontario 37:41
tuna fish and mercury in hair 37:475
volatile organics in blood 36:364
Human exposure, apple thinners and azinphosmethyl 31:631
estimation from expectorate samples 32:517
flower garden workers, organophosphates 32:251
mutagens in tanning industry 32:400
organic solvent vapor technique 32:200
organochlorine pesticides in serum 32:265

Human exposure, pesticides in air 32:629
residues of OP compounds in dormitories 32:259
to toluene-di-isocyanate 32:134
Hydrazine, microbial degradation 39:78
microbial degradation in soil and water 39:541
monomethylhydrazine effect on diatom 35:98
toxicity to salamander larvae 37:739
Hydrazine hydrate, toxicity to Daphnia 33:598
toxicity to fathead minnow 33:598
Hydrocarbon, analysis of halogenated hydrocarbons by widebore GLC 38:789
aromatic hydrocarbons in scallops, France 34:228
aromatic photolysis and hydrogen peroxide 34:89
average respiratory intake 34:17
benzene and toluene determination in soil and plant 34:10
distribution of naphthalene in birds and mammals 34:549
hepatic metabolism and micronucleus test 34:715
in benthic marine algae, Antarctica 38:313
in seawater, Greece 34:390
toxicity of coal gasifier waste to aquatic plants 35:551
Hydrothol 191, toxicity to phytoplankton and trout 37:350
Hydroxyanisole, toxicity to human cells 35:427
Hydroxycinnamic acid, chlorination in water and toxic risk 37:866
Hydroxytoluene, toxicity to human cells 35:427
Hydrozines, effect on death rate of Enterobacter cloacae 31:360
Hypercholesterolemia, induction by PCB's 33:78
Hypertension, and Pb, FeSn, Zn 38:975

Incense, mutagenic activity of smoke 38:827
Indole, distribution in cattle, swine, and pullets 37:246
Insect, floating emergence trap 31:547
Insecticides, residues in fruit, Canada 39:272
Iron, bioaccumulation in fish 37:395
Cd/Mn and Cd/Fe interaction 38:969
in fur of animals 37:213
in gamebird plummage 35:776
influence on Mn intoxication 32:10
levels in bird feathers 31:1
levels in molluscs, S. Africa 31:331
9,10-phenonthrenequinone monoxine as selective reagent for 32:324
TCDD effect on hepatic iron distribution 38:300
Isofenphos, antidotes 33:386
neuropathology 33:386

Kepone, effect on liver enzymes 39:655
liver changes in rat 37:169

Landfill, leaching of chemical contaminants 38:775
toxicology of leachate 38:337
LD_{50}, BASIC program for IBM-PC 37:18
Lead, absorption in cows 32:290
acid-base balance, blood gas in crab 40:198
adrenal changes in rat 37:62
and blood pressure in rats 34:730
and hematology in mallards 38:78

Lead, bioaccumulation in molluscs 31:339
biological half-life in Orchesella 38:213
bovine blood as quality control for human blood 35:380
calcium-lead interactions in earthworms 37:226
chelation in lead intoxication 37:317
chronic hematological and biochemical effects, fish 38:748
diagnostic criteria for poisoning in steers 39:622
effect of lead shot in grouse 33:121
effect on aminolevulinic acid dehydratase 33:92
effect on male reproduction, rat 39:448
effect on mercury deposition in mice 34:438
effect on norepinephrine and ambulation 36:81
effect on settlement of oysters 31:344
effect on soil respiration 35:517
fetal development and casein diet 39:641
from shot ingestion 35:1
heat and lead shot toxicity to ducks 40:165
in cats fed pine voles 34:291
in ducks due to lead shot 35:163
induction of zinc-thionein in rat liver 35:143
in fish from lead mining, Missouri, USA 34:736
in hair of black female hypertensives 32:525
in humans, Korea 38:189
in Lake Ontario salmonids 38:695
in Lake Pontchartrain, USA 37:151
in livestock, Italy 39:460
in marsh birds 35:1
in sciatic nerve, rats 37:47
in sheep near smelter 37:87
intoxication and brain Zn, Cu, and Pb 32:157
in Virginia mink 35:29
lactose and milk replacer effect on toxicity 36:356
lead acetate, microphonics, action potential 38:571
lead nitrate and thyroid function 38:981
level in edible vegetables 38:805
levels in fish 31:257
levels in molluscs, S. Africa 31:331
low dose effects in calves 39:512
migration from tableware 37:678
motor nerve conduction velocity in rat 37:47
pollution in plants from urban area 38:203
soft tissue accumulation, rabbit 39:334
supplement effects on accumulation 39:209
toxic effects w/Cd in foodchain 32:717
toxicity of lead shot to ducks 32:417; 40:159
trace elements in sheep 37:87
uptake and loss in fresh water crab 39:63
variation in migratory birds 37:219
wastewater cleanup 34:866
Lead acetate, microphonics, action potential, MN conduction velocity 38:571
Lead arsenate, in pine voles from treated orchards 34:291
Lead nitrate, effect on thyroid function, squirrel 38:981
Lead shot, effect in willow grouse 33:121
toxicity to ducks 32:417

Lindane, absorption and elimination in crustacea 40:731
acetylcholinesterase activity effects 39:647
bioaccumulation and toxicity in fish 31:453
bioconcentration and fate processes 34:349
distribution and elimination in goats 36:518
effect on fish respiration 32:570
effect on liver mitochondrial function 33:106
effect on soil fungi 36:533
effect on testosterone metabolism, cockerel, turkey 38:911
importance of dietary sources to fish 33:423
importance of environmental sources to fish 33:423
in river Nile fish 33:246
in watersnakes in Mississippi 32:460
metabolism in the rat 32:148
short exposure and liver uptake and metabolism 32:140
suspended solid effect on bioavailability 38:500
testicular changes of rats 38:154
toxicity and Tween 80 35:452
toxicity to calves 32:533
toxicity to T. pyriformis 35:452
Lipid, lipid solubility and uptake patterns of pollutants 40:410
Liver, metabolism of phosphoric acid triesters 33:281

Malathion, bird cholinesterase after application 38:456
cytopathological changes in Periplaneta americana 34:842
effect on crab carbohydrate metabolism 37:816
effect on fish respiration 32:570
effect on frog embryo 31:170
effect on hepatic function 36:73
effect on intestinal function 33:289
effect on sexual cycle of alga 36:412
growth effects in Periplaneta americana 34:275
malnutrition and MFO 40:110
molt inhibition in crab 35:92
mutagenic activity 38:925
penetration kinetics into Periplaneta americana 32:205
toxicity to mummichog 38:681
toxicity to Tilapia mossambica 31:543
Maleic hydrazide, applicator exposure in tobacco 34:403
developmental effects in the rat 33:184
human exposure in tobacco 34:469
teratology in the rat 33:184
Manganese, in fur of animals 37:213
levels in bird feathers 31:1
levels in dogfish exposed to zinc 31:415
levels in molluscs, S. Africa 31:331
intoxication and influence on essential elements 32:10
toxicity of Mn and Mo to mussel 37:303
Mecoprop, identification of 4-chloro-2-methylphenol 34:656
metabolism in soil 34:656
Mercuric chloride, effect on coronary blood flow in rats 31:132
effect on intrarenal mercury distribution 38:67
Mercury, accumulation and growth effects, Azolla 39:701
accumulation in Chironomus spp. 37:402

Mercury, acid phosphatase activity in bluegill exposed to methyl mercuric chloride 36:460
biochemical toxicity to clam 40:510
body size and content in bivalve 39:56
chemical versus biological methylation 36:401
complexes of methyl mercury with thiols 37:890
contamination in river marshes, Spain 37:253
diet and feather content in gyrfalcon 32:453
distribution, demethylation, hematology in rats 38:426
effect of lead on deposition in mice 34:438
effect on chickens 33:317
effect on taurine transport 39:202
environmental pollution from chlor-alkali 32:439
in flounder, length and environmental relationships 38:318
in fur of animals 37:213
in fur seal 35:490
inhibition of brain monoamine oxidase 35:620
in human breath from dental amalgams 34:459
in human hair, Jakarta Bay 33:382
in mushrooms, Spain 36:662
in soil w/different humus 39:593
interaction with pesticides on cyanobacterium 34:676
intrarenal distribution in rat 38:67
in water and marine organisms 39:406
larval tolerance in killifish 31:530
levels in aquatic organisms 31:9
levels in bird feathers 31:1
levels in fish from Lahontan Reservoir, NV 31:31
levels of and selenium in fish 34:572
mercuric chloride toxicity and distribution in fish 40:178
mercury, heavy metals, and selenium variation, birds 37:219
methyl mercuric chloride and cholesterol in bluegill 36:181
methyl mercuric chloride effects on nervous system 38:985
methyl mercury accumulation in earthworm 35:452
methyl mercury strain differences in excretion 36:500
methyl mercury toxicity in rat 36:668
methyl mercury toxicity to larval lamprey 37:281
myelin binding and selenium status 37:783
nephrotoxicity and calmodulin antagonists 34:432
pollution near industry, Finland 36:294
pollution near industry, India 36:299
resistance and mercuric reductase activity, microorganisms 38:1070
resistant sediment bacteria 36:405
sex differences in toxicity in rat 37:916
size and concentration relationship 38:515
toxicity assay using Baker's yeast 32:80
tuna fish and human hair 37:475
uptake and distribution in mice 31:605
use in assessing metallothionein-like proteins 33:144
water deprivation and effects, chickens 33:317
Mesothelioma, epidemiology 33:682
Metals, accumulation by a spider, U.K. 34:183
air pollution and lamb liver levels, Norway 34:175
and formalin preservation of blood 33:525

Metals, cadmium toxicity to striped bass, calcium effect 34:196
Daphnia and trout pellets 34:890
determination of bacterial resistance 31:705
distribution in sediments of Penobscot Bay, Maine 31:566
effect on fungal development 34:684
hair concentrations and blood pressure 34:163
injury to E. coli 34:188
in sediments, Saudia Arabia 34:565
trace metal conc. in fish 33:348
waterbird accumulation at dredge disposal 34:295
Methamidophos, anticholinesterase properties, mammals, insects 38:131
effect on trout cholinesterase 38:22
Methanol, toxicity to fish and invertebrates 37:615
Methidathion, dislodgeable residues on cotton 31:551
Methiocarb, toxicity of molluscicide pellets to wood mice 40:147
Methomyl, effect on acetylcholinesterase activity, mice 31:158
dislodgeable residues on cotton 31:551
Methoxychlor, effect on early life stages, trout 40:764
Methylarsonic acid, metabolism and excretion in hamster 40:280
Methyl benzimidazole carbamate, teratogenicity in mammals 33:257
toxicity to rats 38:890
Methylcholanthrene, effect on liver enzymes in fish 31:292
Methylene chloride, effect on sediment-based respiration 34:239
toxicity to fathead minnow 39:869
Methylenebisthiocyanate, toxicity to freshwater organisms 40:517
Methyl-isofenphos, mass spectroscopy 40:665
Methyl isocyanate, effects on lungs of rat and rabbit 38:876
Methylmercuric chloride, effect on rat nervous system 38:985
Methyl mercury, body size and content in bivalve 39:56
chronic toxicity to finch 40:123
comparison of GLC analyses 34:158
distribution, demethylation, hematology in rats 38:426
GLC determination 34:158
isoproterenol potentiation of effects 40:249
myelin binding and selenium status 37:783
placental transfer in man 33:69
regeneration, accumulation in earthworm 35:157
sea salt anions and stability 31:486
selenite effect on uptake 35:335
strain differences in excretion 36:500
temperature effect on toxicity 32:543
toxicity in rat 36:668
Methyl parathion, dissipation from cotton foliage 39:280
effect on acid phosphatase in crab 37:106
effect on betacyanin efflux 37:448
effect on crab carbohydrate metabolism 36:204
effect on the estuarine benthos 31:501
effect on Tilapia mossambica enzymes 31:474
fate in seawater 33:40
in seawater, Port-Said, Egypt 2:489
molt inhibition in crab 35:92
persistence in carp pond 37:705
persistence in seawater 33:40
recovery of Achase in prawn 40:752

Methyl parathion, recovery of photosynthesis in algae 32:102
resistant Chlorella protothecoides, characterization 31:369
Metsulfuron methyl, persistence in soil 37:698
MFO, induction by endosulfan 32:550
Microbe, effect of metals and inorganic ions 34:858
Micronucleus test, hepatic metabolism of aromatic hydrocarbons 34:715
Microtox test, multiple regression analysis 36:707
Milk, rapid pesticide analysis 32:651
Minamata disease, Jakarta Bay 33:382
Mirex, fecal elimination w/paraffins in cow and goat 32:27
Mocap, dose-cholinesterase response 38:834
Modeling, factorial design for synergistic effects 39:729
Molecular branching 34:775
Molecular connectivity indices, teratogenicity, carcinogenicity, and mutagenicity 37:326, 633
Molybdenum, toxicity of Mo and Mn to mussel 37:303
Monoamine oxidase, styrene oxide and brain activity 34:722
Monocrotophos, acute toxicity to fish 35:228
algae metabolism 39:251
Monomethylhydrazine, effect on diatom 35:98
Monosodium methanearsonate, effect on mouse reproduction 36:337
MSMA, effect on mouse reprodution 36:337
LC_{50} to microcrustaceans 35:127
toxicity to rabbit 40:119
Mutagen, activity in incense smoke 38:827
austocystins 37:643
4-chloro-3-methylphenol 37:651
drinking water 34:815
dry residue of Arno river 38:899
endosulfan, phosalone, malathion, permethrin 38:925
molecular connectivity indices, benzene, biphenyl 37:633
molecular connectivity indices of carbamates 37:326
nuclear abnormalities in minnow and bullhead 40:489
of heavy metals 40:597
petroleum oil DNA damage in wild rodents 40:344
promutagenic activity of liver homogenates 38:565
quinine in E. coli 38:422
tumeric extract in Ames test 40:351
Mutagenesis, air pollutants, urban and rural, Japan 32:688
ethylbromophos in mice 32:269
in leather and tannery industry 32:400
liquid waste from acetonitrile production 32:742
methylbromophos in mice 32:269
of digester effluent 32:510
oil fly ash 32:179
Mutagenicity, biphenyl ether herbicide and procarcinogen metabolism 39:175
degradation of chloroacetones 39:549
nitrohumic acid 39:843
pyrene 33:410
Tama River Sediments 39:696
Mutagens, formation in water by nitrite ion 31:79
Mycotoxin, aflatoxin suppression of iron-binding and bone marrow 40:576
aflatoxin toxicity to 5th instar milkweed bug 40:333
bioassay with 22 yeast strains 39:86

Mycotoxin, chaetochromin teratogenicity 39:299
detection of deoxynivalenol 34:645
in human food S. Africa 40:240

Naphthalene, biliary metabolites of 2,6-diisopropyl-in rats 35:745
derivative structure-activity prediction 34:1
distribution in birds and mammals 34:549
effect on copepod-alga ecosystem 36:260
effect on cytochrome oxidase 40:105
inhibition of mitochondrial respiration 31:644
1-naphthol, toxicity to goldfish and killifish 31:526
Natural Products, mycoassay of essential oils 39:688
NDELA, contamination of dairy and tobacco products 35:466
contamination of meat, Nigeria 36:392
Nemacur, estimating hazard to human applicators 37:159
Niacinamide, in tomato sauce, mass spectroscopy 32:195
Nickel, bioaccumulation in molluscs 31:339
hepatectomy and metabolic disposition, rat 40:439
in crayfish 38:540
in gamebird plummage 35:776
in Lake Pontchartrain, USA 37:151
levels in molluscs, S. Africa 31:331
toxicity using Baker's yeast assay 32:80
Nickel acetate, mouse age and toxicity 34:446
Nigeria, dyestuff effluents 33:210, 215
Nitrilotriacetic acid, effect on Cd uptake by yeast 37:96
Nitrite, catfish behavior after exposure 34:754
effect on fish respiration 35:106
formation of mutagen in water 31:79
methemoglobinemia and septicemia in fish 32:669
methemoglobinemia, formation and recovery in fish 32:674
resistance of channel catfish to hypoxia 37:802
toxicity and fish weight 32:238
toxicity to chicks 32:711
toxicity to crayfish 34:369
Nitrofurazone, effect on catfish and goldfish 38:42
Nitrogen, determination of exchangeable nitrogen in soil 38:377
Nitrohumic acid, mutagenicity 39:843
Nitrophenol, toxicity to freshwater bacteria 37:714
Nitrosamine, volatiles in food, beverages, Italy 40:41
Nitrosodiethanolamine, contamination of dairy and tobacco products 35:466
contamination of meat, Nigeria 36:392
N-methylcarbamates, high performance liquid chromatography 33:538
N-nitroso curzate, formation in water 37:672
Norflurazon, movement in soil 35:279
NO_2, increased urinary tryptophan metabolism and exposure 40:139
Nutrition, PCB toxicity to mice 34:709

Octachlorostyrene, disposition in spiney lobster 37:747
Oil, adenylate energy charge, estuarine organisms 38:753
amino acids in mussel and crude oil exposure 35:810
benzene fraction effects on rat liver and kidney 37:55
bioaccumulation in Daphnia spp. 37:125
bioassay of coal liquefaction wastewaters 35:249

Oil, bioconcentration in trout 33:330
contamination and thermoregulation in birds 35:9
crude oil toxicity to carp 39:188
Cu, Cr, oil, oil dispersant toxicity to Artemia 38:483
diesel oil and macrobenthos effects 35:112
drilling mud effects on coral 33:362
effect of soil texture on heating oil soil respiration 36:540
effect on amino acids 33:56
effect on copepod-alga ecosystem 36:260
effect on freshwater alga 36:114
effect on sea anemone 33:56
effect on uptake and excretion in midges 33:225
essential oil toxicity to fungi 36:527
feeding reduction and recovery in tunner 38:1044
food oil aniline analysis 39:511
genotoxic petroleum refinery effluent 35:240
growth of pullet chicks fed contaminated diets 37:441
metabolic response of shrimp 36:444
microsomal response of snail 36:843
mutugenic activity in alga 36:250
oil shale retort water and microorganisms 38:769
partition coefficient and bioconcentration 33:561
phosphoadenylate pool, estuarine organisms 38:753
spills and bird metabolism 35:9
toxicity of castor oil to catfish 37:297
toxicity of oil and heavy metals to Xenopus 38:345
toxicity to freshwater invertebrates 36:150
treatment of runoff in detention basins 36:548
vegetable oil factory effluent, effect on Channa punctatus 39:417
Oil dispersant, metabolic response of shrimp 36:444
Oil fly ash, mutagenicity 32:179
Oilseeds, rapid pesticide analysis 32:651
Organic, analyses in water 34:650
Organic solutes, column technique for sorption determination 32:37
Organic vapor, exposure technique 32:200
Organochlorine, absorption, distribution, excretion of trihalomethanes 37:752
accumulation by oyster 34:256
accumulation of PCB [illegible], crab 36:571
alsystin effect on bird populations 34:68
analysis of HPLC 32:301
and eggshell thickness 35:767
barrier sprays for managing chlordane residues 37:467
chlordane residues in human blood 36:635
chlordane testicular effects 39:434
chlordane, urban areas and fish 39:563
chlorination and chromosomal aberrations 34:80
chlorination byproducts, seawater 38:475
chlorination of phenolic water contaminants 39:393
chloroxuron analysis in strawberry 35:711
confirming residues 33:138
contaminated groundwater, Florida, USA 34:578
content in overwintering birds, Italy 37:538
cow's milk contamination, Isreal 40:94
cyclic steam distillation recovery of 36:41

Organochlorine exposure, residues in serum of mothers and newborns in Yugoslavia 32:265
Organochlorine pesticide, bioaccumulation in clams 31:33
levels in sea turtles 31:53
Organophosphate, accelerated degradation with sodium perborate 35:682
alkyl phosphates in fieldworker urine, Florida, USA 34:210
effect of parathion on carbohydrate metabolism in crab 36:204
effect on intestinal function 33:289
fruitfly bioassay and residues 34:809
malathion growth effects in cockroach 34:275
metabolic fate of RH-0994 in cattle 34:309
metabolism of fenitrothion by teleost 36:140
mutagenic properties of pirimiphosmethyl 36:60
parathion effect on membrane composition 36:267
pesticides in air 32:627
posioning in humans and erythrocyte effects 39:802
soman effect on blood parameters 40:365
subacute effect on hepatic function 36:73
temperature effect on cholinesterase recovery 40:358
toxicity of dimethoate to birds 36:616
toxicity to songbirds 33:302
Oryzalin, toxicity to fish and crawfish 31:304
Oxychlordane, levels in human milk 31:251
Oyster, accumulation of naphthalene, PCB, and benzopyrene 34:256
Oysters, effect of Puget Sound sediments on larvae 31:438
Ozone, effect on Plasmodium berghei infection 33:99
effect on chloroplasts 36:421
impact on oxidation of nitrilotriacetic acid 33:548
influence of vitamin E on toxicity 34:417

PAH, contamination of American lobster 37:730
determination in mussels 37:570
effects on microlayer phytoneuston 38:1037
environmental conditions and mutagenicity 36:685
in fish, Arabian Gulf 38:546
in mussel and fish, Finland 37:337
in sediments, Saguenay Fjord, Canada 37:133
metabolism in mullets 38:53

PAH, profile in urban water particulates, Sweden 38:1020
structure-biodegradability in soil 37:490
Palmitoylpentachlorophenol, in human fat 34:661
Paraffins, physiological effects on mice 34:205
Paranitrophenol, toxicity of Daphnia magna 36:730
Paraquat, accumulation in carp 39:370
effect on aquatic bacteria 36:52
effect on embryos and tadpoles 38:1006
ELISA assay 39:490
histopathology and gill function 38:308
removal from fabrics 37:558
teratogenesis in frog 33:592
toxicity to frog embryo 33:592
Parathion, alternation of behavior in gulls 31:93
dissipation from cotton foliage 39:280
effect on E. coli membranes 34:265
effect on bivalve, Lamellidens 38:509
effect on laughing gull behavior 33:499
effect on membrane lipid composition 36:267
effect on repatic function 36:73
effect on reproduction 33:484
effect on Rhizobium phospholipids and proteins 38:184
malnutrition and MFO 40:110
PCB elimination kinetics in P. reticulata 40:381
photodegradation 38:820
sublethal effects on gulls 33:499
temperature effect on toxicity in P. leucopus 35:375
Partition coefficient, benzo(a)pyrene 32:316
measure of bioconcentration 33:561
PBB, toxicity to bobwhite quail 33:308
PCB, accumulation by crab 36:571
and 2,6-dimethylnaphthalene in salmon 34:114
bird reproduction and progesterone levels 39:663
comparison in human and monkey milk 39:736
diet composition and toxicity in mice 34:709
disposition in snapping turtle 38:1000
distribution in blood and milk during lactation 31:639
effect of oil matrix on quantification 37:10
effect on adrenergic response and glycogen in fish 31:712
effect on body and organ weights in rats 31:686
effect on PAH metabolism in mullet 38:53
effect on pituitary-adrenal function 31:322
effect on lipoprotein cholesterol in mice 34:427
effect on male rat fertility 38:946
effect on uptake and excretion in midges 33:225
egg mortality of Charr 35:531
enzyme induction in the rat 37:180
hepatomegaly in rats 31:183
hypercholesterolemia induction 33:78
identification and quantification in paper products 32:45
in adipose tissue 33:277
in Australian fur seal 39:358
in bass, Hudson River, USA 34:883
in blue crabs 39:857

PCB, in farm silo 35:51
in flounder 39:863
in honeybees 38:271
in human fat, Italy 36:644
in human fat, Louisiana, USA 36:651
in Illinois raptors 36:23
in lactating Michigan women 32:125
in Lake Erie mink 39:939
in marine organisms, Canada 37:823
in pheasant, Kansas, USA 34:317
in raccoons, NY 40:711
in recycled paper 40:451
in serum 33:277
in turtle eggs 39:791
in *vitro* methemoglobin formation, screening 31:278
in water and caddisfly, Hudson River, USA 34:96
in watersnakes in Mississippi 32:460
in wild animals 34:832
in wood shavings and animal products 40:468
levels in birds, Illinois 31:407
levels in cow and calf 31:263
levels in fish in Long Island Sound 31:257
levels in human milk 31:251
levels in shrimp, porpoise, and water 31:25
limitations with nickel-boride dechlorination analysis 37:199
metabolic effects in mullet 40:8
metabolism of 2-chlorobiphenyl in suspension culture 39:960
midge larval absorption 39:1055
oxalic acid extraction from sediment 32:657
partitioning between fat and blood 33:277
persistence in Michigan population 32:125
photodegradation 38:409
pyrolysis GC-mass spec in sediments 31:734
removal by conventional water treatment 36:929
residue method in fish 37:1
residue stability in herring oil 40:660
residues from silo coatings 33:270
residues in game animals 34:527
reverse-phase partitioning and GC-mass spec 31:285
River Nile, Egypt 34:126
silage contamination, Switzerland 33:270
stability of Hudson River contamination 31:377
surface and air levels in public buildings 37:461
toxicity to *Daphnia* 33:63
translocation/volatilization 35:673
uptake by macroalga 38:58
uptake of food chain 31:445
water purification with chitosan 37:858
PCCH, toxic effect in rat 36:92
PCP, temperature effects on toxicity to *Chironomus* spp. 36:744
Penicillic acid, toxicity to chicks 32:711
Pentachloronitrobenzene, mass balance in a closed system 31:559
metabolites in spinach 31:230
Pentachlorophenate, toxicity to daphnids and fish 37:308

Pentachlorophenol, determination in human blood and urine 35:406
disposition of chlorinated diphenylethers, rats 31:613
effect on pig serum proteins 31:599
metabolism by human liver 35:596
persistence in aquaculture system 36:101
sampling in air 35:460
toxicity to life stages of bass 34:377
toxicity to snail 35:633
effect on largemouth bass 39:379
Periplaneta americana, malathion induced cytopathology 34:842
malathion penetration 32:205
Permethrin, effect on nontarget organisms with atrazine 31:297
effect on sexual cycle of alga 36:412
mutagenic activity 38:925
Pesticide, hazard evaluation 34:775
in Illinois raptors 36:23
organochlorine in British otters 36:656
organochlorine recovery by steam distillation 36:41
organochlorines in fish 36:109
sperm mobility in rat bioassay 36:317
Pesticide exposure, chlorobenzilate in citrus fieldworkers 35:496
in greenhouses 35:750
organochlorine house treatment, human milk 35:202
residues of carbophenothion 35:213
skin rashes in grape workers 35:418
sweat monitoring 35:68
Petroleum, benzene fraction and hepatic and renal proteins 34:45
effect on microbial growth 32:602
release of volatile hydrocarbons 32:621
Petroleum hydrocarbons, levels in coastal lagoons, Mexico 31:271
Petroleum oil, DNA damage in wild rodents 40:344
urea fertilizer in soil bioreclamation 40:66
pH, and pentachlorophenol toxicity in fish 33:621
effect on sunapee char life stages 33:430
Phenanthrene, disposition in spiney lobster 37:747
Phenochlor, effect on MFO, blood and liver lipids, rat 39:318
Phenol, acute toxicity of chlorophenols to Daphnia spp. 37:599
analysis in sea water by fluorometry 31:494
analysis of pentachlorophenol in blood and urine 35:406
brominated phenol in sediments, Japan 35:272
brominated phenol in wastewater 33:395
chlorinated phenols and conjugates in trout bile 35:802
chlorination of water contaminants 39:393
4-chloro-3-methylphenol mutagenicity and acute toxicity 37:651
detection of BHT exposure 33:533
effect of pentachlorophenol on fermentation 36:271
effect on mitochondrial respiration 38:847
effect on transaminase activity in fish 36:176
in vitro methemoglobin formation, screening 31:278
pentachlorophenol metabolism by human liver 35:596
pH and pentachlorophenol toxicity to fish 33:621
structure/activity of para-substituted phenols 38:994
temperature effects on toxicity to Chironomus spp. 36:744
toxicity of chlorinated phenol to bacteria 38:868

Phenol, toxicity of paranitrophenol to Daphnia magna 36:730
toxicity of pentachlorophenol to snail 35:633
toxicity to freshwater bacteria 37:714
toxicity to mullet 40:23
toxicity to yeasts 31:188
Phenols, molecular connectivity and fish toxicity 32:354
Phenoxy herbicides, toxicity to aquatic organisms 35:314
Phenoxyalkanoic acid, toxicity to freshwater bacteria 37:714
Phenthoate, fish mortality after application 32:587
Phenylbutazone, renal papillary necrosis 33:379
Phenylphenol, effect on cultured mammalian cells 31:428
Phenylurea, effect on diatoms in soil 33:439
Phorate, cleanup technique 32:59
degradation in soil 39:579
persistence in soils 38:381
Phosalone, effect on hepatic function 36:73
malnutrition and MFO 40:110
mutagenic activity 38:925
Phosphamidon, chronic treatment and liver morphology 37:767
distribution in sparrow 36:47
effect on carbohydrate metabolism in prawn 40:389
GLC evaluation of intoxication 36:47
recovery of Achase in prawn 40:752
salinity and toxicity to crustacean 37:797
toxicity of phosphamidon 32:295
Phosphoric acid triesters, metabolism by rat 33:281
Phosphorus, immobilization of, in water 34:587
Phthalate, determination in water by GLC 36:33
effect on aggregation and growth of phytoplankton 39:1
effects on liver 31:177
effects on plant seedlings 40:626
in vitro methemoglobin formation, screening 31:278
measurement in mammalian tissue 38:363
reduction of predation efficiency of Odonata 38:220
toxicity of contaminated sediment to benthic organisms 37:141
Phthalazine, environmental impact 38:332
Picloram, acute toxicity to Daphnia 35:121
determination in human urine 37:938
stability in forest soil 37:496
toxicity to trout life stages 38:653
Piperonyl butoxide, residue in cattle from ear tag 37:692
Pirimiphosmethyl, mutagenic properties 36:680
Placenta, methylmercury transfer 33:69
Planaria, aldrin metabolism 34:871
Plankton, chronic effects of trichlorobenzene 34:761
Plasma cholinesterase, purification 31:164
Pollen, SO_2 effects 34:691
Polybrominated biphenyl, HPLC purification 33:20
purification of congener 2 33:20
Polycyclic aromatic hydrocarbons, activation by hepatic S-9 35:301
Polynuclear aromatic hydrocarbons, effect on algal nitrogen fixation 35:258
in oysters from coastal marinas 35:835
Propachlor, persistence in soil 34:143
residues in cabbage 31:587

Propanil, degradation in water 36:556
drift 39:126
effect on plankton oxygen production 39:245
exposure of nonapplicator personnel 39:126
Propoxur, determination in vegetables and water 35:296
home fogging and reentry 39:762
Propylene glycol, toxicity to cultured human cells 38:151
Propylgallate, toxicity to human cells 35:427
Propyzamide, concentrations in soil and lettuce 38:240
Prothiophos, GC-MS identification, cabbage levels 31:116
Pulp, effluent acids in fish bile 33:233
Pyrene, in oyster, South Carolina 35:835
mutagenicity 33:410
Pyrethroid, toxicity to honeybees 34:560
toxicity to trout 34:134
Pyrethroids, dislodgeable residues on cotton 31:551
effect on MFO enzymes in quail 31:479
in milk 35:51
sampling in air 35:460

Quail, histological ID of calciferol poisoning 32:175
PBB toxicity 33:308
postmortem liver weight 33:313
Quinalphos, algae metabolism 39:251
Quinine, mutation in E. coli 38:422
Quinone, effect on mitochondrial respiration 38:847

Radioactivity, tree bark as monitor 35:193
Rainwater, heavy metal content, Geneva, NY 31:574
Rat, hepatic enzymes and TCDD 34:787
Ra-226, in otter near uranium tailings 38:209
Red #3, disposition in rat 32:171
Red #23, disposition in rat 32:171
Resin acids, metabolites in fish bile 36:429
Rhizobium japonicum, effect of pesticides on growth 31:432
R. mormoratus, as bioassay organism 33:33
Rodeo, toxicity to trout and salmon 39:1028
Roundup, toxicity to fish and Daphnia 39:15
toxicity to trout and salmon 39:1028
R-plasmid, transfer in soil 39:74

Salamander, embryonic survival, pH and temperature 31:467
Sarin, aqueous stability 33:1
proton NMR-spectroscopy 33:505
Saxitoxin, resistance of crab 40:190
Scallops, aromatic hydrocarbon residues, France 34:228
Seawater, trace pollutant effects on marine organisms 33:460
Sediment, bioassay of Puget Sound sediments on polychaete worm 33:451
diesel oil and macrobenthos effects 35:112
effect on fish behavior bioassay 34:770
effect on life cycle of Capitella capitata 33:451
linking bioassay and chemical data 33:400
96-hr bioassay 33:400
Selenite, effect on methylmercury uptake 35:335

Selenium, and chronic copper toxicity 33:605
effect of environmental factors on toxicity 37:369
effect on antennal integrity in Daphnia 33:605
effect on bluegills 35:816
effect on erythropoiesis 36:674
levels and mercury in fish 34:572
reduction in cigarette smoke toxicity 36:278
sodium selenite distribution in mouse 40:425
survival of hermit crab 37:369
uptake and distribution in bluegill 40:771
variation in migratory birds with heavy metals 37:219
levels and age in sediments 39:214
toxicity, teratogenesis, bluegill 39:998
Sewage, ammonia patterns in streams 40:539
asbestos in ash 40:703
coliphages and bacteria in ground water 39:92
discharge and coprostanol distribution 32:75
Sewage Sludge, effect on meadow voles 32:724
metal transfer in vermicomposting 31:673
plants and green peach aphid preference 39:257
Shellfish, residues of triclosan methyl in Japan 32:227
Shrimp, influence of Cd on microelement content 32:93
toxicity testing, size, temp., and water hardness 31:459
Silver, in Lake Pontchartrain, USA 37:151
levels in fish 31:257
toxicity using Baker's yeast assay 32:80
Simazine, effect on aquatic bacteria 32:243
Simetryne, fate in river water, shellfish, sediment 39:555
Smooth muscle, action of acetylcholine 34:476
duodenal preparations for assays 33:169
quantification of rhythmic contraction 33:169
Sodium Lauryl Sulfate, effect on rat liver and kidney enzymes 39:425
toxicity to snail 39:1036
Sodium arsenite, synergistic modulation of lymphocyte mitogenesis 37:187
Sodium fluoride, effect on starved earthworm fluoride content 38:157
Sodium molybdate dihydrate, toxicity to saltwater organisms 40:785
Sodium monofluoroacetate, in arctic fox 40:707
toxicity to striped skunk 38:934
Sodium selenite, distribution in mouse 40:425
effect on peripheral leukocyte levels 37:175
Soil, dehydrogenase, microbes and toxicity 34:858
micororganisms in soils w/accelerated pesticide degradation 39:776
organochlorine residues 39:286
R-plasmid transfer 39:74
Soil dehydrogenase, toxicity of chemicals to microbes 34:858
Solvents, effect on fish scales 31:315
levels in office air 31:222
Soman, aqueous stability 33:1
effect on blood parameters 40:365
proton NMR-spectroscopy 33:505
Songbirds, toxicity of granular insecticides 33:302
SO_2, growth and development of Dahlia rosea 40:743
Specific molecular connectivity 34:775
Sterols, coprostanol and sewage discharge 32:75
masculinization of fish 35:627

Styrene, acute and genotoxicity 35:525
styrene monomer in Chilean foods 37:207
Styrene oxide, effect on biogenic amines in rats 34:722
effect on dopamine receptors in rat 35:602
Sulfide, in sediments, Japan 34:623
Sulfotepp, in diazinon and organophosphate pesticides 38:793
Sulfur dioxide, effect on chloroplasts 36:421
effect on pollen and seed set 34:691
Sulfuryl Fluoride, desorption from household commodities 39:769
Surfactant, biodegradation kinetics 39:385
sodium lauryl sulfate and rat liver and kidney enzymes 39:425
Surfactants, influence on metal uptake by hyacinth 33:444
toxicity to plants 32:119
Tween 80 effect on lindane toxicity 35:452
Synfuel, toxicity assay of by-product waters 32:613

Tabun, proton NMR-spectroscopy 33:505
TCDD, BHA, glutathione and enzyme induction 34:787
comparative lipid peroxidation in mammals 31:649
effect on hepatic iron distribution 38:300
in turtle eggs 39:791
Tellurium, blood levels 34:170
neurochemical effects 34:170
Temephos, effect on respiration of crustaceans 31:148
fish acetylcholinesterase activity after application 38:461
residues in stagnant ponds 35:308
toxicity to fish 31:120
toxicity to salt marsh mosquitoes 31:148
1080, acute and subacute effects on starlings 31:692
in arctic fox 40:707
Teratogen, molecular connectivity indices, benzene, biphenyl 37:638
molecular connectivity indices of carbamates 37:326

Teratogenesis, selenium in bluegill 39:998
Teratogenicity, chaetochromin to mouse embryos 39:299
Terbufos, degradation in corn fields, conservation tillage 38:369
degradation in soil 39:579
Tetrabromobisphenol-A, identification in sediment in Japan 31:48
Tetrachloro-DDT, model ecosystem behavior 38:96
Tetrachlorobenzene, water solubility 33:133
Tetrachloroethylene, toxicity to human and monkey cells 35:593
Tetrachlorohydroquinone, metabolite of pentachlorophenol 35:596
Tetrachlorophenol, acute dermal toxicity in rats 31:680
Tetraethylthiuram disulfide, degradation by bacteria 35:354
Tetramethylthiuram, toxicity to mink and ferret 38:618
Thallium, toxicity to fathead minnow 32:565
Thiobencarb, determination in rice 40:655
Thiodan, toxicity to mosquito fish 40:779
Thiram, delayed ethanol elimination in rat 32:537
exposure of seed-treating applicators 31:244
toxicity to mink and ferret 38:618
Tin, accumulation and effects of butyltin dichloride in freshwater clam 36:756
effect on lipid peroxidation 33:200

Tin, migration from tableware 37:638
neurotoxic effects of trimethyltin 33:295
toxicity of tributyltin to mollusc embryo and larvae 39:1012
TMTD, degradation by inoculation with bacteria 35:354
Tobacco, particle size and electrical fields 34:850
Tocopheryl, toxicity to human cells 35:427
Toluene, effect on norepinephrine and dopamine levels 36:510
toxicity of hydroxytoluene to human cells 35:427
Toluene-diisocyanate, toxicity to workers 32:134
TOTP, chicken corticosterone levels 34:780
Toxaphene, residue method in fish 37:1
sampling in air 35:460
toxicity to Bosmina spp. and Daphnia spp. 37:719
Toxicity test, soil microbes and soil dehydrogenase 34:858
Toxicity tests, age response in static tests on fish 31:139
TPB's, toxcity to Daphnia 33:63
TPCP, uptake in soybean 35:209
Trace elements, extraction scheme to study association 32:339
Treflam, LC_{50} to microcrustaceans 35:127
Triadimefon, immunosorbent assay, ELISA 36:9
Triallate, in air 40:683
residue behavior in soil 35:723
Tributyltin, acute toxicity to mollusc embryo and larvae 39:1012
analysis in salmon by AA 39:412
Trichlopyr, excretion in bovine 39:443
persistence in pastures 39:134
toxicity to juvenile salmonids 39:721
Trichlorfon, effect on peripheral blood in quail 35:757
Trichloroacetic acid, effect on dragonfly nymphs 34:271
Trichlorobenzene, effect on freshwater plankton 34:761
Trichloroethane, toxicity to human and monkey cells 35:593
Trichloroethylene, contaminated groundwater discharge, Florida, USA 34:578
induction of epoxide hydrolase 39:630
toxicity to human and monkey cells 35:593
toxicity to marine organisms 37:830
1,3,5-trichloro-2-(4-nitrophenoxy) benzene, in water, shellfish, sediments, Japan 37:344
1,2,4-trichlorobenzene, DO and toxicity to minnows 38:667
2-Chloroethanol, fatty acid conjugate, chloroethylstearate 39:835
2,4-D, determination in urine 33:518
effect on electron transport and respiration in soil 31:595
effect on lymphocyte mitogenesis 37:187
fate in freshwater 35:564
prenatal exposure and brain biochemistry 40:294
soil metabolism 34:150
toxicity to Daphnia 40:1
uptake and distribution in the slug 31:727
2,4-dichlorophenol, soil product of 2,4-D 34:150
2,4,5-T, effect on morphology of Klebsiella 35:739
prenatal exposure and brain biochemistry 40:294
2,6-diisopropylnaphthalene, billiary metabolites in rats 35:745
2,3-dichloro-1,4-naphthoquinone, inhibition of liver glycoylsis 35:23
2,3,7,8-tetrachlorodibenzofuran, synthesis of ^{13}C, C15-C18 isomers 38:416

2,3,6-trichlorophenylacetic acid, degradation in soil & water 32:383
Triclopyr, toxicity of triethylamine salt to Daphnia 32:497
Triclopyr triethylamine, toxicity to fathead minnow 33:339
Triclosan methyl, residues in aquatic organisms 32:227
Trifluralin, in air 40:683
toxicity to fish and crawfish 31:304
Trihalomethane, drinking water 35:576
effect of dechlorination on yields 34:497
in drinking water, Spain 35:73
Trimethylarsenic, metabolism, excretion in man 32:682
Trimethyltin, neurotoxic effects 33:295
Tri-p-cresyl phosphate, uptake in soybean 35:209
Triphenyltin, effect on seminiferous tubule distribution in rats 31:658
Tritium, radiosensitivity of mouse testes 34:803
toxicity 34:803
Trout, bioconcentration of oil-shale components 33:330
early fry mortality and starvation 35:82
resin acids in bile 33:233
starvation losses 35:82
Turtle, DDE and egg incubation 34:121

Uranium, effect on soybean growth 32:580
proteinuria and aminoaciduria in rodents 34:407
Ra-226 in otter 38:209
toxicity in rats and mice 39:168
uranyl nitrate toxicity to chicks 37:907
Uranyl nitrate, effect on renal function 36:67
toxicity to chicks 37:907

Vanadium, effect on calcium absorption in rat 37:899
in arctic bivalve 39:1063
intoxication effects on copper metabolism 40:309
residue identity of endrin reaction products 31:588
toxicity to freshwater organisms 39:194
Volatile, air pollution effects on leaf structure 39:474
alcohol consumption and exposure to volatiles 37:874
asbestos catalyzed oxidation of benzo(a)pyrene 39:312
benzopyrene conjugates, soybean 39:294
CC_{14} and liver injury in rats 38:959
chlordane and heptachlor in residences 39:911
chlordane in residences 39:903
determination of benzene and toluene in soil and plant 34:10
determination of dithiocarbamates in air 37:931
disposition of trihalomethanes in mice and rats 37:752
elimination of volatiles from water 40:54
halocarbon effect on lymphocytes and cells 38:856
halocarbons in animal blood 39:122
halocarbons in blood 35:583
halocarbons in process water and food 39:601
halocarbons in water 37:677
hexane and toluene effects on norepinephrine and dopamine levels 36:510
measuring pesticide volatility 35:569
method for organics in interstitial water 38:937

Volatile, organics in human blood 36:364
PCB in plant foliage 35:673
pollutants in Lake Pontchartrain, USA 34:246
reproduction and 1,2-dibromo-3-chloropropane 37:531
sampling for DBCP and DCP 36:629
sampling pesticides with Chromosorb 102 35:460
teratologic evaluation of dichlorobenzene 37:164
tissue distribution of acetaldehyde in rats 35:393
Volatility, priority pollutants in bird diets 34:634
recovery of halocarbons from water and blood 34:486
VX, proton NMR-spectroscopy 33:505

Warfarin, acute toxicity to poultry 37:544
Water, accuracy and precision of multiclass analysis 37:686
acid rain and frogs 39:37
acid rain, sodium loss and fish mortality 39:7
acidic and alkaline effects on glycogen metabolism of red muscle, Tilapia spp. 37:113
acrylamide toxicity to freshwater fish 37:274
aerobic treatment of wine wastewater 38:9
ammonia from effluent 40:539
ammonia toxicity to fish and invertebrates 38:324
ammonium sulfate induced oocyte changes in fish 36:871
analysis for trace polymers 35:476
analysis of dicofol, fenson, tetradifon 36:211
analysis of gasoline in water 40:244
analysis of trihalomethanes 35:576
analytical method for flocculent 35:476
anion contents from containers 37:668
anthracene in trout 39:29
arsenic levels in well water, Oregon 33:264
arsenic toxicity and sediment 38:491
atrazine depression of algal growth 39:1041
atrazine effect on stream algae 37:330
atrazine effects on bluegill 38:47
atrazine in aquatic ecosystems 32:345
atrazine in groundwater 39:807
atrazine residues 40:647
azaarene contamination 32:445
bacterial growth toxicity test 37:565
benzene metabolism in trout 39:182
beryllium in sediments, Nagoya, Japan 36:935
bioaccumulation of fossil fuel in Daphnia spp. 37:125
bioaccumulation of metals by bivalve, Ontario 38:762
bioassay for pesticides with mosquito 35:133
bioassay for toxicants 35:443
bioassay with alga, computerized 36:801
bioassay with human and monkey cells 36:523
bioassay with marine entoproct 38:634
biological activity of particulates in drinking water 38:1
biotransformation of acenaphthene 36:286
brominated trihalomethanes 35:73
bromophenols in drinking water, Barcelona, Spain 36:219
cadmium and oogenesis in prawn 36:192

Water, Cd, Zn in potable water 40:462
cell culture assay of quality 32:220
charcoal filters 37:668
chemical leaching from landfill 38:775
chlordane from urban areas and fish 39:563
chlordane levels in Belmont Lake, NY, USA 36:159
chlorinated phenolics in trout 35:802
chlorination and chromosomal aberrations 34:80
chlorination byproducts, seawater 38:475
chlorination of phenolic contaminants 39:393
chlorine reactivity with organics 36:715
chloroform in tap water and human blood 36:477
cholinesterase inhibition by river sediment 32:391
coliphages and bacteria in groundwater 39:92
contamination by dicofol, fenson, tetradifon 36:211
crude oil 32:363
crude oil 32:368
crude oil toxicity to carp 39:188
Cu, Cd, Ni in crayfish 38:540
Cu, salinity, and Dunaliella glycerol production 38:359
cyanatryn degradation 35:666
decabromobiphenyl ether in sediment 36:839
degradation of propanil 36:556
determination of phthalates in 36:33
determination of volatiles w/gas chromatography 32:429
diflubenzuron toxicity to shrimp 36:858
dioxin and dibenzofuran in American lobster 39:1069
disappearance of chlorothalonil 40:405
distribution of carbofuran in rice paddy 36:763
effect of aldicarb on fish 38:36
effect of naphthalene and oil on ecosystem 36:260
effect of pesticides on aquatic organisms 35:646
elimination of volatiles 40:54
ethanol toxicity to Daphnia and Ceriodaphnia 39:229
fenitrothion residues 33:468
fenthion persistence in Florida estuary 38:226
fenvalerate toxicity to minnow 38:727
formation of N-nitroso curzate 37:672
4-hydroxycinnamic acid chlorination and risk 37:866
genetic, biochemical effects of dry residue, Arno river 38:899
glyphosate photodegradation 36:723
halocarbon recovery 34:486
heavy metal accumulation in fish, Mexico 37:395
heavy metal pollution 32:503
heavy metals in marine coastal species 38:534
heavy metals in rainwater, NY, USA 36:918
heavy metals in seaweed 40:724
heavy metals/light/chlorophyll/blue-green algae 38:1062
hydrazine degradation 39:541
hydrocarbons in algae, Antarctica 38:313
hydrophobic solubility and carrier solvents 32:53
isolation of organics 34:650
lead levels and fish contamination 34:730
lipophilicity and uptake patterns of pollutants 40:410

Water, long-term fish toxicity test 37:606
metabolic response of shrimp to oil and oil dispersant 36:444
metal effect on salmon olfaction 36:579
metals in biota and sediment, Lake Pontchartrain, USA 37:151
metals in oysters 36:587
metals in runoff, biological significance 36:900
metals in sediment, Saudia Arabia 34:565
method for volatiles in interstitial water, soil 38:937
methyl parathion effect on crab acid phosphatase activity 37:106
microbial growth in chlorinated waste 38:661
mitochondria as quality monitor 38:467
molecular volume of chemicals and toxicity 36:881
mussel heavy metal bioassay 38:641
mutagenic activity of oil in alga 36:250
mutagens 34:815
mutagens in Tama River sediment 39:701
neutralized acidic, nonacidic lakes and metals in crayfish 39:40
nitrite and hypoxia in channel catfish 37:802
oil and feeding reduction/recovery in Cunner 38:1044
oil effect on snail microsome response 36:843
oil shale retort water and microorganism growth 38:769
oil shale water effect on alga 36:114
oil toxicity to freshwater invertebrates 36:150
organic solvent toxicity to green alga 40:736
organochlorine and heavy metals in aq. org., Spain 39:1076
organochlorine and resin acid metabolites in fish 36:429
organochlorine in sediments, Arabian Sea 39:1049
organochlorine insecticides in trout 38:247
organochlorine pesticides in fish 38:674
organochlorine pesticides in fish and shellfish 38:528
organochlorine pollution and levels in fish 36:109
organochlorine toxicity to eel 39:365
organochlorines in Great Lakes 34:285
organochlorines in Mediterranean Sea 34:216
organochlorines in edible marine organisms, Kuwait 38:266
PAH contamination of American lobster 37:730
PAH effects on microlayer phytoneuston 38:1037
PAH in Arabian gulf fish 38:546
PAH in mussel and fish, Finland 37:337
PAH proflie in urban water particulates, Sweden 38:1020
paraquat and gill function 38:308
PCB absorption by Midge larvae 39:1055
PCB in Hudson River, USA 34:96
PCB in marine organisms, Canada 37:823
PCB removal by conventional water treatment 36:929
PCB removal with chitosan 37:858
pentachlorophenol toxicity to bass 39:379
persistence of methyl parathion in carp pond 37:705
persistence of pentachlorophenol, aquaculture 36:101
pH and fish avoidance behavior 37:808
phenol effect on transaminase in fish 36:176
phosphorus pollution reduction 34:587
photolysis of aromatic compounds 34:89
phthalate effects on phytoplankton 39:1

Water, phthalate reduction of predation by Odonata 38:220
physical-chemical treatments of wine wastes 37:407
picloram toxicity to trout life stages 38:653
preparation of crude oil fractions for bioassay 36:226
rates of chemical biodegradation in natural waters 39:237
recycling system for fish toxicology 40:185
reference chemicals in aquatic toxicology 39:23
reproductive effects of DBCP 37:531
RIA for paralytic shellfish toxin 39:264
salinity and toxicity of phosphamidon to crustacean 37:797
sediment and bioavailability of lindane and hexachlorobenzene 38:500
sensitivity of trout eggs and alevins to metals 36:468
sodium lauryl sulfate toxicity to snail 39:1036
soil water samplers 36:563
sublethal effects of sodium selenite to Ceriodaphnia spp. 36:876
sulfide in sediments 34:623
surfactant biodegradation kinetics 39:385
survival of hermit crab and environmental factors 37:369
teleost pathology due to sewage 37:266
temephos and fish cholinesterase 38:461
temperature and heavy metal toxicity 38:736
toxic effects of solvents to algae 38:1012
toxicity of 3,4-dichloroaniline to minnows 38:352
toxicity of ammonia, nitrite and nitrate 36:866
toxicity of fenthion to freshwater mollusc 37:622
toxicity of hydrothol to phytoplankton and trout 37:350
toxicity of methanol and N,N-dimethylformamide to freshwater organisms 37:615
toxicity of phthalate sediment to benthic organisms 37:141
toxicity of pulp mill effluent to pike eggs 36:738
toxicity of trichloroethylene to marine organisms 37:830
toxicology of urban landfill leachate 38:337
trace metal, organochlorine, river water, NJ, USA 39:465
trace pollutant effect on marine organisms 33:460
treatment of petroleum runoff w/detention basins 36:548
1,3,5-trichloro-2-(4-nitrophenoxy) benzene in Ishikari River ecosystem, Japan 37:344
trihalomethane and dechlorination 34:497
vanadium in artic bivalve 39:1063
vanadium toxicity to freshwater organisms 39:194
vegetable oil factory effluent effect on Channa punctatus 39:47
volatile halocarbons 37:677
volatile halocarbons in process water and food 39:601
volatile pollutants in Lake Pontchartrain, USA 34:246
water solubility of organics 33:133
Zn, Fe, Mn, Mg in crayfish, Canada 38:1076
Wine, treatment of distillery wastes 37:407

XE-340, trapping medium, organochlorine pesticides 33:13
Xylitol, effect on Pb absorption in mouse and cockerel 37:77

Yellow #74, disposition in rat 32:171

Zinc, bioaccumulation in molluscs 31:339
diet-body relationship 37:234
disposition in mussels 37:579
distribution in oysters 36:895
effect on aminolevulinic acid dehydratase 33:92
effect on copper and manganese in fish 31:415
effect on freshwater snail 39:45
effect on microbes 36:396
effect on settlement of oysters 31:344
fish gill and liver as monitor 32:233
growth effects in hamster and rat 35:149
in CCl_4-treated rat 32:405
in fur of animals 37:213
in hair of black female hypertensives 32:525
in Lake Pontchartrain, USA 37:151
in potable water, Saudi Arabia 40:462
in sheep near smelter 37:87
influence on Mn intoxication 32:10
levels in bird feathers 31:1
levels in molluscs, S. Africa 31:331
pollution of Molonglo River, Australia 36:186
relationship with Pb after Pb intoxication 32:157
reversal of Cd tissue damage 39:350
survival of trout and pollution 36:186
toxicity and accumulation in crayfish 37:387
toxicity to Daphnia 33:63
toxicity to fish 36:888
toxicity to juvenile and subadult trout 39:898
toxicity using Baker's yeast assay 32:80
uptake and excretion in clams 32:85
Zinc Acetate, sex and age mortality in mice 39:156
Zinc phosphide, persistence in burrows 34:557
Zinc thionein, lead-induced in rat liver 35:143
Zineb, effect on MFO, rats and mice 38:862
Ziram, inhibition of liver enzymes 37:53
